

Heavy-Duty Security Floor Stand

iPad (Gen. 5-6), iPad Pro 9.7, and iPad Air

PAD-HSFK9

This extremely durable security floor stand for iPad gives you mobility and multi-point adjustment in one convenient package. Your tablet stays protected from theft within the padded aluminum enclosure with a powerful lock and key security mechanism. The telescoping, height adjustable pole and flexible gooseneck allow virtually infinite positioning options, while the 360-degree rotating enclosure accommodates portrait and landscape display options. Its open design allows access to your tablet's ports, cameras, buttons, and headphone jack for compatibility with credit card readers. The case is equipped with interior cable slack management space and a rubberized cutout at the rear so your device stays charged while in use. The stand is also outfitted with 5 lockable swivel casters. Also included is a multi-purpose storage cradle which attaches to the central pole and can hold a battery pack, stack of business cards, or other accessories.
